

# Review Website

Some reference websites:

- 1.Yelp: [https://www.yelp.com/?utm\\_source=chatgpt.com](https://www.yelp.com/?utm_source=chatgpt.com)
- 2.TrusPilot: <https://www.trustpilot.com/>
- 3.Site Jabber: [https://www.sitejabber.com/?utm\\_source=chatgpt.com](https://www.sitejabber.com/?utm_source=chatgpt.com)
- 4.Consumer Affairs: [https://www.consumeraffairs.com/?utm\\_source=chatgpt.com](https://www.consumeraffairs.com/?utm_source=chatgpt.com)

Some code resources

- 1.TrustPilot clone built with ZIO ecosystem (based on Rock the JVM zio rite of passage course)  
: [https://github.com/dallinhuff/zio-tpilot?utm\\_source=chatgpt.com](https://github.com/dallinhuff/zio-tpilot?utm_source=chatgpt.com)
2. [https://github.com/zioolkowskiux/trustpilot-clone?utm\\_source=chatgpt.com](https://github.com/zioolkowskiux/trustpilot-clone?utm_source=chatgpt.com)
- 3.

Sections I may add:

- 1.Blogs for not being fooled
- 2.Alternatives of products/services
- 3.AI suggestion
- 4.Business

Some important questions:

- 1.How to maintain user privacy?
- 2.Help company to give them actual review
- 3.User can freely give their reviews
- 4.How to monitor if the review is fake or real?
- 5.Affiliate marketing, how?
- 6.A section for business owners
- 7.Payment issues
